

# BRS-250 Bistable Relay

## Owners Manual

### OWNERS MANUAL

EN

#### PURPOSE

The BRS-250 relay is suitable for a wide range of voltages, has a very low current consumption and can switch a high current.

#### FEATURES

- Suitable for both 12 V and 24 V systems
- High switching current
- Bistable relay
- Extremely low operating current

#### INSTALLATION

Follow the following steps and the connection diagram when connecting the BRS-250.

1. Connect the equipment to be controlled to T2.
2. (Optional.) Connect a lamp to the status/alarm output.
3. Connect the positive battery terminal to T1.
4. Connect the positive battery terminal to A1.
5. Connect the switch between positive terminal and START
6. Connect the negative terminal on the BRS-250 to the negative terminal on the battery via a 5 A fuse.

#### Warnings:

- The product may only be connected by skilled fitters who are aware of the regulations for working with high battery voltages.
- The use of poor quality connection materials and/or excessively thin cables may result in damage to the product. (See Technical Data → Cable diameter for the correct sizes.)
- A short circuit between the positive and negative terminals of the battery may severely damage your system.
- Always use fuses.
- Do not place the BRS-250 in the vicinity of highly flammable materials.
- Place the BRS-250 in a cool and dry place.

#### OPERATION

##### START

When a voltage is supplied to T1 and a voltage of 5 V to 35 V is connected to the START input, the relay will be closed. If the voltage is removed from the START input, the relay will open.

##### LED

The LED lights up the moment the relay is switched on and switches off when the relay is switched off.

## **UNDERVOLTAGE**

When the voltage is lower than 7 V for 5 seconds, the BRS-250 will switch off. This is to ensure that the relay will still switch off when an (extremely) low voltage is detected. If the voltage is subsequently higher than 7.5 V for 5 seconds, the BRS-250 will be switched on again.

## **SWITCH**

The button on the BRS-250 is meant for testing the relay quickly and easily. The relay will close when the button is pressed and open again when the button is released.

## **STATUS / ALARM**

The alarm output is active when the relay is closed, and inactive when the relay is open.

## **TECHNICAL DATA**

<b>ELECTRICAL</b>	
Operating voltage range	6.5 V to 35 V
Current consumption	Active $\pm 1.4$ mA Passive $\pm 0.7$ mA
Inrush current (100 ms)	12 V mode 2.6 A 24 V mode 5.0 A
Switch-off current (50 ms)	12 V mode 2.6 A 24 V mode 5.0 A
Switching current	Continuous 250 A @ 25 °C Peak 1,500 A @ 25 °C
<b>DIMENSION</b>	
Weight	370 g
Dimensions (L*W*H)	120*82*57 mm
Mounting holes	$\varnothing$ 5 mm
Terminal strip contacts	L*W*H: 18*19*2 mm $\varnothing$ : 8 mm
<b>CABLE DIAMETER</b>	
Flange connectors (T1 & T2)	minimum $\varnothing$ : 50 mm <sup>2</sup>
Connections faston 6.3 mm	minimum $\varnothing$ : 1.5 mm <sup>2</sup>

## STATUS/ALARM UITGANG

De alarm uitgang is actief wanneer het relais gesloten is, en inactief wanneer het relais geopend is.

## TECHNISCHE GEGEVENS

ELEKTRONISCHE INFORMATIE	
Werkspanningsbereik	6,5 V t/m 35 V
Opgenomen stroom	actief $\pm 1,4$ mA passief $\pm 0,7$ mA
Inschakel stroom (100ms)	12 V mode 2,6 A 24 V mode 5,0 A
Uitschakel stroom (50ms)	12 V mode 2,6 A 24 V mode 5,0 A
Schakelstroom	Continu 250 A @ 25 °C Piek 1,500 A @ 25 °C
DIMENSIES	
Gewicht	370 g
Afmetingen (L*B*H)	120*82*57 mm
Montagegaten	$\emptyset$ 5 mm
Aansluitstrip contacten	L*B*H: 18*19*2 mm $\emptyset$ : 8 mm
KABEL DIAMETERS	
Flens aansluitingen (T1 & T2)	minimale $\emptyset$ : 50 mm <sup>2</sup>
Aansluitingen faston 6,3 mm	minimale $\emptyset$ : 1,5 mm <sup>2</sup>

## STATUS/ALARM-AUSGANG

Der Alarmausgang ist aktiv, wenn das Relais geschlossen ist, und inaktiv, wenn das Relais geöffnet ist.

## TECHNISCHE DATEN

ELEKTRONISCHE INFORMATION	
Arbeitsspannungsbereich	6,5 V bis 35 V
Aufgenommener Strom	Aktiv $\pm 1,4$ mA Passiv $\pm 0,7$ mA
Einschaltstrom (100ms)	12 V modus 2,6 A 24 V modus 5,0 A
Ausschaltstrom (50ms)	12 V modus 2,6 A 24 V modus 5,0 A
Schaltstrom	Dauerbetrieb 250 A @ 25 °C Spitze 1,500 A @ 25 °C
ABMESSUNGEN	
Gewicht	370 g
Abmessungen (L*B*H)	120*82*57 mm
Montagelöcher	$\emptyset$ 5 mm
Anschlussstreifen Kontakte	L*B*H: 18*19*2 mm $\emptyset$ : 8 mm
KABELDURCHMESSER	
Flanschanschlüsse (T1 & T2)	minimaler $\emptyset$ : 50 mm <sup>2</sup>
Anschluss faston 6,3 mm	minimaler $\emptyset$ : 1,5 mm <sup>2</sup>

## SORTIE ÉTAT/ALARME

La sortie d'alarme est active lorsque le relais est fermé et inactive lorsque le relais est ouvert.

## SPÉCIFICATIONS TECHNIQUES

INFORMATIONS ÉLECTRONIQUES	
Plage de tension de fonctionnement	6,5 V à 35 V compris
Courant absorbé	Actif $\pm 1,4$ mA Passif $\pm 0,7$ mA
Intensité du courant à la fermeture du circuit (100ms)	12 V mode 2,6 A 24 V mode 5,0 A
Courant d'interruption (50ms)	12 V mode 2,6 A 24 V mode 5,0 A
Courant de commutation	Continu 250 A @ 25 °C Crête 1,500 A @ 25 °C
DIMENSIONS	
Poids	370 g
Dimensions (L*B*H)	120*82*57 mm
Orifices de montage	$\varnothing$ 5 mm
Barre de raccordement des contacts	L*B*H: 18*19*2 mm $\varnothing$ : 8 mm
DIAMÈTRES DES CÂBLES	
Connexions à bride (T1 & T2)	minimum $\varnothing$ : 50 mm <sup>2</sup>
connexions faston 6,3 mm	minimum $\varnothing$ : 1,5 mm <sup>2</sup>

## DECLARATION OF CONFORMITY

IMPORTER : Samlex Europe B.V.

ADDRESS : ARIS VAN BROEKWEG 15  
1507 BA ZAANDAM  
The Netherlands

Declares that the following products:

PRODUCT TYPE : Bi-stable relay 250A 12/24V

BRAND : Samlex

**BRS 250**

Is in conformity with the requirements of the following Directives of the European Union:  
EMC directive 2014/35/EU  
RoHs directive 2011/65/EU + 2015/863/EU

Standards to which conformity is declared:

EN61000-6-2:2019

EN61000-6-3:2007

Signed : Marcel van Veen

Date: 10-01-2024

Authority : Managing Director
